

NEW LONDON LOCAL SCHOOLS
SCHOOL BUS PURCHASING PROGRAM
2019 BID SPEC. LIST

Bid price as specified without options as per Federal and State of Ohio Department of Education minimum school bus specifications under 4501-5 (inclusive) ORC. All bids will comply with the current safety regulations of the Department of Education adopted by and with the advice and consent of the director of public safety pursuant to section 4511.76 of the Revised Code and all other pertinent provisions of law. The body/chassis supplier shall provide and attach a complete body/chassis specification sheet itemizing- including manufacturer brand names of the State of Ohio Department of Education minimum school bus body/chassis that will be supplied at this base bid. Must meet or exceed FMVSS/CMVSS standards.

By signing this specification, you guarantee that the equipment being bid meets all state specifications

Bus Classification	Type A-I	Please list specifications for the following information in the space provided below	Standard Available or Additional
Fire suppression system: must be installed per the manufacturer's recommendations. Installation shall not interfere with the driver's ability to operate any OEM controls and shall be completely isolated from the vehicle's electrical system by means of a fuse or breaker. The suppressant delivery points may be installed in the engine compartment, battery box, and undercarriage of the vehicle. Mounting of the system shall be outside of the passenger compartment and have no effect on the vehicles structure to include welding or drilling into the main frame. The cylinder and gauges shall be contained in a metal protective box and marked on three sides in 2 inch red letters "Fire Suppression" on a white background. The system shall be isolated to prevent accidental discharge of the suppression contents. A monitor to show the status of the unit may be installed in the driver's area in such a way as to not interfere with the safe operation of the bus.
