

MISSION STATEMENT

A. Vision

Within the next seven years, all New London Local School students will demonstrate that they have achieved a high level of understanding in all subject areas. Our schools will provide a safe, comfortable, positive environment that promotes individual and group learning styles and experiences.

B. Mission

The mission of the New London Schools is to work with and unite community resources to provide continuously improving academic, extra curricular, and work related programs designed so that all students can achieve a successful level of performance.

C. Beliefs

We believe:

That all New London students should be provided the facilities and instructional materials for a positive learning environment.

That all students can be academically promoted and successfully complete all state and locally developed tests of learner outcomes.

That all students should be provided a safe instructional and extracurricular environment.

That participation in extracurricular activities is an earned opportunity based upon academic standards.

That the process of establishing and reviewing student performance is ongoing and continuous.

That the opportunities for community educational programs as well as volunteer programs designed to assist student learning need to be expanded and included in the district's instructional programs.

That professional staff development for teacher growth is essential for increased student performance.
