

VALEDICTORIAN/SALUTATORIAN

The valedictorian and salutatorian of the graduating class will be determined by averaging all grades earned during grades 9, 10, 11, and 12, up to and including the third quarter of the 12th year. Grades earned during the fourth quarter will not be included in valedictorian or salutatorian computations. In order to be considered for valedictorian or salutatorian honors, a student must have been enrolled as a full-time student in New London Schools during their entire Junior and Senior years.

To determine the top student, a grade point average will be carried to three decimal places, rounded back to the second decimal slot. For example, a 3.967 would result in a grade point average of 3.97, while a 3.924 would result in a 3.92 grade point average.
