## SUMMER SCHOOL PROGRAM

A summer school program providing opportunities for enrichment, recreation, and remedial instruction for students in grades nine through twelve may be provided. Students eligible to participate in the summer school program include:

A.   Resident students eligible for regular attendance in the District;

B.   Students eligible by standards established by the governmental funding source;

C.   Nonresident students whose age or grade level is appropriate to the course of study applied for; or

D.   Summer residents of this District provided that the attendance of such students will not preclude that attendance of resident students.

Tuition fees for resident and nonresident pupils may be charged, subject to the Board of Education's approval, except as such programs are funded by the federal government or other outside agencies.

No more than two (2) credits shall be granted toward graduation. Credit may be earned for a course if the student failed the course at New London.

The summer school curriculum shall be established in line with the needs of students and/or as may be mandated by legislation. The administration shall have the right to cancel announced summer courses for which there is insufficient enrollment and to refund fees. It shall also have the right to dismiss a student with no refund of fees for disciplinary reasons.

All summer school courses for credit must have the approval of the building principal prior to beginning the work.

Written documentation of the courses, grades earned, and completion of the course must be received by the respective principal before credit shall be awarded. Cost for any summer school course work shall be the student's responsibility.

Any course taken under the Summer School section (either high school or college for high school credit) shall count towards grade calculation for the class rank.

O.R.C. §§3313.57; 3313.641
