

## Superintendent's Corner

### Greetings Wildcats

Earlier this week, the New London Local Schools Community issued a vote of confidence in the educational goals and programming of our district. Over 1,400 supporters in three counties turn out to vote "Yes" for our renewal levy. This represents nearly 56% of the total votes cast. The renewal of these local funds are critical to allow our district to continue its tradition of high academic expectations in state of the art facilities. Although some may downplay the importance of this levy outcome, stating that it's only a renewal, in these uncertain economic times, even a renewal levy isn't guaranteed. In my opinion, this election demonstrates a strong vote of confidence in the direction our district is heading. A vote of confidence that we are good stewards of the tax payer's dollar. A vote of confidence in our pledge to keep the needs of our students at the center of our decision making. I'm proud of the gains our district has made over the years, proud of the students that we've graduated from New London Local Schools, proud of the teachers and staff that work tirelessly with our students, and very proud of the support that our community has in the schools. From the staff, students, Board of Education, and myself, thank you New London for keeping our students' future bright.

Until Next Time,  
GO WILDCATS!!!!

Brad Romano  
Superintendent, New London Local Schools
